

Many families have asked about free lunches, as some School Districts in Santa Cruz are providing free meals to students. In 2022-23, there is legislation that all students can get two meals a day during school, breakfast, and lunch, and we will have a program in place next year. Unfortunately, at this time, Happy Valley does not provide hot lunch for students on a daily basis, as we are not a part of the National School Lunch Program. However, we **never** want students to go hungry and have emergency food available in the kitchen if students need food. Additionally, Ohlsen Foods is an alternative that families can choose to order lunch. Please contact the office if you have any questions or concerns.
